Collector Dowling Preparing for a Big Rush in the Whisky Trade.

Appraiser Schulte Busy Since the Report of the Agreement on the Tariff Bill.

CINCINNATI, Aug. 15.—The effect of the passage of the tariff bill is already noticeable in local trade, as is indicated by the statements of the different government officials. Collector Dowling has made preparations for a big rush to take whisky out of bond. That he was correct in his calculations was evidenced early Tuesday morning, when the orders began pouring in from the distilleries. Among the first checks to appear was one for \$90,000, from the Clifton Springs distillery. Other checks came in rapidly, with the indication that the day's receipts would run up to the enormous sum of \$200,000 or more than was ever received by the local collectors in one day in the history of this district.

Another check, it is said, will arrive within the next few days, and will be even larger than the one drawn by the Clifton Springs Co. This check, it is said, will be for about \$150,000, and will come from the Consolidated Distilling Co. Collector Dowling has for some time had his force of men ready to take whisky ready for the rush, and he thinks he will be able to get through without being compelled to call upon any of the revenue agents for assistance. His present force is working very hard. Most of the local distilleries will begin at once to increase their output, several of them have already doubled their forces, while others have materially increased their help. Appraiser Schulte has been busy since the report of the agreement of the house and senate. The customs brokers of the city are making rapid preparations to take care of the increased business, and the appraiser, as soon as the bill becomes a law. There are about the \$5,000,000 worth of imports now in the hands of the local customs officials. The merchants, the customs brokers say, will not wait for appraiser Schulte to be officially notified of the passage of the bill, but will, as soon as they are assured of its becoming a law, begin to remove the goods from bond, paying the old rate, subject to a rebate after the appraiser receives official notification. This will cause an immense amount of business for the government officials, but the business houses need the goods and say that they must have them. Especially in the case of staple dry goods, the merchants all being badly in need of their importations. There will be a tremendous rush to get this class of goods out.

The subtreasury forces are preparing for a big rush. Cashier Stout says that as yet there has been no change, but that there is evidence that the banks are preparing for great financial activity. Since the passage of the tariff bill, in a few days ago the merchants at Louisville, in need of their importations, began to take out those commodities which would be affected by the passage of the senate bill.

As a result of this there was received at the local subtreasury Tuesday morning \$94,000 from the collector of customs at Louisville, \$73,000 of that amount being in gold coin.

FEELING IT.

Pittsburgh Manufacturers Report Revival in Business Orders.

PITTSBURGH, Pa., Aug. 15.—The passage of the tariff bill has brought itself felt in this district by a marked revival of business. Stocks in all lines of manufacture had been reduced to a minimum, especially in the iron and steel industry. Tuesday several large orders were received by local manufacturers and many more are expected. In some lines of business the demand has increased today as soon as the passage of the tariff bill was assured, and the telegraph wires were kept busy Monday night with orders for goods. It is asserted that a slight reduction in wages will be necessary in the case of glass works, the tin plate men and the workmen in some branches of the iron and steel trade, but this has been conceded, the scales generally allowing for reductions to fit tariff changes. The dispute will be over the size of the cuts.

MAD LOUISIANIANS.

The Passage of the Free Sugar Bill Causes Intense Feeling Among Sugar Men.

NEW ORLEANS, Aug. 15.—The passage of the free sugar bill by the house caused intense feeling among the sugar men, some of whom were disposed to hold the Louisiana cane industry responsible for the unfavorable legislation, and even Justice White was denounced for his practical desertion of Louisiana to accept a position on the supreme bench at a moment when his services were in such great demand. The feeling is general that the action of congress will assist the republicans very materially, rendering four congressional districts, the first, second, third and sixth, doubtful.

The amended Wilson bill will hit Louisiana pretty hard, but the house free sugar, it is admitted on all hands, will cause considerable ruin. It is urged that now is the time for the Louisiana sugar planters to bestir themselves and urge congress and the country that the need of Louisiana before the country.

It is probable that a mass meeting will be held to protest against the action of the house or to urge some other action will be shortly taken to bring the needs of Louisiana before the country.

CANADIANS PLEASED.

A Speedy Revival in the Lumber, Barley and Wool Trade Expected.

TORONTO, Ont., Aug. 15.—The Canadians are delighted with the passage of the tariff bill. Now a speedy revival of all those industries is looked for. In some respects they could not have been suited better, even if the Canadians themselves had the framing of the bill. For the last eight months the lumber, barley and wool trade of Canada has been stagnant, owing to the depression of export trade with the States. Now a speedy revival of all those industries is looked for.

The Canadian lumberman will get a free trade in his goods to work out deals if he wants to do his own cutting. Ontario dealers have for months been accumulating large amounts of wool, which they will ship to the states when the bill becomes a law. Large shipments of barley will also be made.

This Turner refused to do, and he was placed in the dungeon, and has received nothing to eat since but bread and water, which he will starve to death before he will work, and the officials say he will never see daylight and will receive nothing but bread and water until he does work.

WHISKY TAX.

A Great Rush to Take Liquors Out of Bond.

It is Estimated That the Receipts Will Be \$23,000,000 This Month.

A Conservative Estimate Places Amount in Bond at 60,000,000 Gallons—Opposite Effect on Custom Revenue Laid Last Year.

WASHINGTON, Aug. 15.—Reports received at the treasury department Tuesday morning from whisky-producing states stated that there is a great rush to take whisky out of bond at the old rate of ninety cents a gallon before the new tax of \$1.10 per gallon becomes operative. At most of the large distilleries whisky in bond has already been gauged, ready upon payment of the tax to be withdrawn.

A conservative estimate places the amount of whisky in bond at 60,000,000 gallons. The average monthly consumption of whisky is between eight and nine million gallons. Since the increased tax on whisky was first put into the tariff bill the receipts from internal revenue have largely increased.

So far in this current fiscal year—one month and a half—the receipts have aggregated \$33,750,000 against \$30,875,000 for the corresponding period last year. For this month \$1,500,000 ahead of the same period last year. It is estimated that the total revenue from internal revenue for this month will foot up \$23,000,000 because of the rush to withdraw whisky.

Until the new tariff bill becomes a law an opposite effect on customs revenue to that on internal revenue will be felt. Not since the tariff bill of 1883 passed have customs warehouses at the ports of entry, New York, Philadelphia and Baltimore, been so crowded with foreign goods, awaiting shipment, until the new tariff bill. The new tariff bill makes a reduction all along the line, none of the goods now in custom bonded warehouses will be withdrawn until the new tariff bill is put into effect. It is estimated that the new bill will take effect in ten days.

As only goods absolutely needed for the war have been withdrawn since the tariff bill has been pending, its signature by the president will be a signal for a great rush to withdraw goods and take advantage of the reduced tariff duties. In view of the passage of the tariff bill the following figures are of interest.

The treasury estimate for the fiscal year 1905 aggregated revenues of \$234,477,748, from these sources: Customs, \$100,000,000; internal revenue, \$100,000,000; miscellaneous items, \$20,000,000; postal service, \$84,477,748.

The estimate of revenue under house bill, as it passed the house, placed a total of \$412,085,172.32. The estimate of revenues under the house bill as amended and passed by the senate July 1, 1904, exceeds in total of both the two previous estimates, and gives the following showing:

Internal revenue, \$100,000,000; Customs, \$100,000,000; Miscellaneous, \$20,000,000; Postal service, \$84,477,748.32. Under the house bill the ad valorem rates of duty showed a decrease of duty amounting to \$75,716.65; under the senate bill the increase of duty is shown at \$19,122,310.81.

TACOMA, Wash., Aug. 15.—Lumbermen are not greatly depressed because of free lumber, not because cheaper labor in British Columbia would not render competition difficult, but because indications are not favorable to the further development of the lumber trade across the border, inasmuch as there is no assurance of free lumber being permitted.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers.

She says: "I spent several weeks in Johns town, Pa., after the great flood, on account of my husband being employed there. We had several children with it, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." Twenty-five and 50 cent bottles for sale by Theo. C. Power, Druggist.

Many who have noticed the beautifully lighted stores of Messrs. W. C. Miner, J. H. and J. C. Peor have wondered what new style electric lamp they were using. The fact is, however, that the light is made from plain every day gas with the Welshbach incandescent burner and it can be fitted to any gas fixture in five minutes. The Welshbach consumes about half as much gas as the ordinary tip burner and gives nearly four times as much light and no flickering—absolutely steady soft, white light that is grateful to the most sensitive eye. For prices and full particulars call on Ballenger the Jeweler.

Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to every person suffering with such a disease, as in my opinion it is the best medicine in existence." Twenty-five and 50 cent bottles for sale by Theo. C. Power, Druggist.

On account of the Ripley Fair the C. and O. will sell round trip tickets to South Ripley August 14th, 15th, 16th and 17th at 25 cents. Extra coaches will be attached to the 9:10 a. m. train.

Mr. J. C. Boswell, one of the best known and most respected citizens of Brownwood, Texas, suffered with diarrhoea for a long time and tried many different remedies without benefit, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was used, that relieved him at once. The Monk!

By MATTHEW G. LEWIS.

(MOSK LEWIS.)

Mr. Lewis was a member of the British Parliament, and his book became so popular in England a hundred years ago that it gained for him the title of "The Monk."

It is a fine piece of classic composition, and after being out of print for many years it has been republished from the original text.

It is far superior to "Maria Monk" and books of that character.
